

# FV20.1 WD

WET & DRY VACUUM CLEANERS

 **FIMAP**®

# FV20.1 WD

Vacuum cleaner for dust and liquids. Compact, robust and particularly inexpensive. Recommended for cleaning contractors, for large-scale tenders when a reliable and cost-effective model is required. It is also very useful for short interventions in environments where accidental liquid spills can occur such as kitchens and bathrooms, in hotels and restaurants.

The hook on the head holds the tube in place so the vacuum cleaner can be stored safely, or simply blocks the tube in the event of a pause during the cleaning task

The accessory holder allows the user to keep any other potentially useful nozzles close to hand

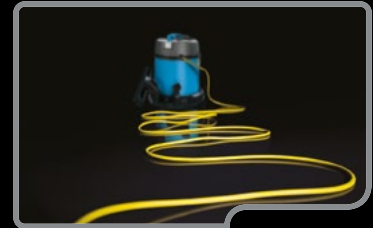

The hook on the top enables the cable to be tidily rewound, so the vacuum cleaner can be stored safely

The four pivoting wheels enable the vacuum cleaner to follow all the movements of the operator during the cleaning task, facilitating his work

The intake air does not hit the filter directly; it is interrupted by a guard that holds back any large debris and spreads the air out to avoid any risk of clogging

The 10-metre cable guarantees a long reach, enabling to work easily even in large rooms or long corridors. The yellow colour makes the cable clearly visible, increasing safety during work

STANDARD EQUIPMENT	FV20.1 WD
Accessory kit Ø32 (mm)	•
Cable-holder hook	•
Cartridge filter	•
4 pivoting wheels	•
Accessory holder	•
10-metre high-visibility yellow cable	•
Resistant suction tubes in chrome-plated steel	•
Handle on the top, making it easy to carry around	•
Paper filter bags	optional

TECHNICAL DATA		FV20.1 WD
Dirt typology		wet & dry
Power	W	1200
Vacuum	kPa	19
Air flow	l/s	29
Tank volume	l	20
Filter bag capacity	l	9
Power supply		with cable
Power supply	V/Hz	220-240 / 50-60
Sound pressure level (ISO 11201)	dB (A)	70
Cable length	m	10
Weight	kg	7,2
Machine dimensions (L x h x w)	mm	357 x 497 x 357

ACCESSORY KIT Ø32
