# FV 30.1 WD

Vacuum cleaner for dust and liquids with 30-litre capacity, available with a plastic or steel tank. It is recommended for regular use in the daily cleaning of areas with different types of flooring. The large rear wheels and the pivoted front ones, make it both easier to transport and easier to move around during use.

It is recommended for the HoReCa sector, where a single cleaning job might involve cleaning carpeted floors but also removing liquids in bathrooms and kitchens, as well as for schools, hospitals and nursing homes.

The steel version is ideal for the industrial and automotive sectors, and in artisan laboratories and professional kitchens.

A set of professional accessories suitable for both dry and liquid residue is supplied as standard.

EQUIPMENT	FV 30.1 WD
Accessory kit Ø37	standard
Microfibre pocket filter	optional
Paper filter bag	optional
Nylon filter	optional
Washable cartridge filter	optional
Cartridge filter	optional
