FV 65 WDB

Powerful vacuum cleaner for dust and liquids, with 2 or 3 two-stage motors and a 65-litre plastic tank, it is tilting and wheeled. It is ideal for sectors where intensive use is required, thanks to the high motor power combined with large diameter accessories that boost vacuuming speed and therefore increase productivity. The handle on the top makes it easier to remove the vacuum cleaner head and thus simplifies maintenance tasks.

It is recommended for the industrial and construction sector, for collecting metal, stone and cement waste. Also suitable for use in mechanical workshops and the car wash.

The tilting system simplifies the drainage phase, even when the tank is completely full. The container tilts, enabling the dirt to be drained off without any excess effort.

To increase productivity when removing liquids from the floor, there is an optional fixed front squeegee for picking up the fluids quickly and drying perfectly, thereby optimising work time and costs.

EQUIPMENT	FV 65 WDB
Accessory kit Ø40	standard
Tilting emptying system	standard
Microfibre pocket filter	optional
Paper filter bag	optional
Nylon filter	optional
Washable cartridge filter	optional
Cartridge filter	optional
Front squeegee	optional

TECHNICAL DATA	FV P65.2 WDB	FV P65.3 WDB	
Type of dirt	wet & dry		
Tank material	plastic		
Motors	2	3	
Stages	2		
Power	W	2400	3600
Vacuum	kPa	22	
Air flow	l/s	108	160
Tank volume	l	65	
Bag capacity	l	25	
Power supply	V/Hz	220-240 / 50-60	
Sound pressure level (ISO 11201 - LpA)	dB (A)	72	73
Cable length	m	10	
Weight	kg	20	22
Machine dimensions (L x h x w)	mm	640 x 1000 x 550	

STANDARD EQUIPMENT

Accessory kit Ø40: 2 chrome-plated tubes, a hose, a nozzle for liquids, a nozzle with bristles for flooring, a nozzle for crevices, a vacuum brush, a fabric filter and a foam filter.
