FV XP110 WD

110-litre vacuum cleaners, available with 2 or 3 motors, for removing dust and liquids. The tank is made of rotational plastic, making it extremely robust. The most powerful version, with its 3 motors, is ideal for intense use where notable vacuuming power is called for. The large diameter accessories help boost the vacuuming speed and therefore productivity.

Their robust design makes these models perfect for the construction sector, for companies that manage hire items on worksites, and for professional cleaning contractors.

The tasks at the end of the job are simplified by the liquid drainage hose, allowing the container to be emptied more quickly.

To increase productivity when removing liquids from the floor, there is an optional fixed front squeegee for picking up the fluids quickly and drying perfectly, thereby optimising work time and costs.

EQUIPMENT	FV XP110 WD
Accessory kit Ø40	standard
Drainage hose	standard
Microfibre pocket filter	optional
Paper filter bag	optional
Cartridge filter	optional
Front squeegee	optional

TECHNICAL DATA		FV XP110.2 WD	FV XP110.3 WD
Type of dirt		wet & dry	
Tank material		plastic	
Motors		2	3
Stages		2	
Power	W	2400	3600
Vacuum	kPa	22	
Air flow	l/s	108	160
Tank volume	l	110	
Bag capacity	l	25	
Power supply	V/Hz	220-240 / 50-60	
Sound pressure level (ISO 11201 – LpA)	dB (A)	73	
Cable length	m	10	
Weight	kg	23	25
Machine dimensions (L x h x w)	mm	660 x 950 x 510
